GLADACRES FLOWER FARM

is located on the State Road at Wanakah, on the South Shore of Lake Erie, just 12 Miles from Buffalo, which we claim is a big suburb of ours. It is sure an Ideal spot for growing Flowers. We specialize on Glads and if finer ones grow anywhere, we would tramp many a League, and then Some to see them.

We test many new varieties each year and retain only the very best.

We are also Hybridizers and have a large number of Extra Grand varieties of our own which we will offer to our friends from year to year as quantities warrant.

Because of ideal growing conditions our Bulbs are of superior quality. Located on the Shore of Lake Erie it is never too hot and our water supply is unlimited Our Flowers are "Perfectly stunning"! So They all say.

AND NOTE OUR PRICES!!!

This has been a wonderful growing Summer with plenty of rain. We did not turn on the water once. So we have a great crop of EXTRA QUALITY BULBS and have priced them very low, that all our friends may have a garden full. If you want the Finest Glads you ever grew, plant "GLADACRES" BULBS.
